for the needs of NBU, Sofia

Candidate: Senior Assist. Dr. Mariya Ogoyska

The procedure complies with the Law and the deadlines and requirements specified therein for the participant in it. The habilitation work consists of 17 parts. I would like to single out five of them, because they are contributing and say new words - about Pencho Slaveykov, Dr. Kr. Krastev, Emanuil Popdimitrov, Geo Milev.

In summary, the work of M. Ogoyska discovers and interprets the traces of Christian religiosity in selected literary texts. The beginning is in texts by N. Rilski, and the end is in the postmodern novel by Yana Bukova. Everywhere, with each author, M. Ogoyska emphasizes key words with biblical semantics - this is how the idea of the Christian spirit in literature gains density. It materializes in the intertextual fields between the language of literature and the language of metaphysical experience.

The habilitating work and the added further research are evidence of the candidate's qualities. I give my positive vote for Mariya Ogoyska to be awarded the academic position of "Associate Professor".
